Plasti-Clear

Category: Polish

Part # 4280

Description: This is the premier polish to restore and clean up dull or faded plastic windows on convertibles or where ever there are fine scratches on plastic that give off that faded look.

Directions: Clean surface thoroughly including finish with a water rinse. Using a clean soft towel or preferably a micro-fiber towel, pour 1/2 ounce of product onto the plastic. Rub firmly in circular motions. Take a clean towel again and remove light haze.

Features: Restores that clear view without the cost of replacing the plastic. Specifically formulated to work on the soft plastic and leave a smooth finish when complete.

Selling Technique: Demonstrate on 1/2 of a dull or faded window.

Target Customer: Used Car Dealers, Detail Centers, Body Shops, Auctions, and Fleets

Sizes Available: Quarts only.
